What we do

Money in and out, end to end

Remittances and payroll flow into our corridors. Supplier payments flow out. Payfuture's rails carry both, with local currency at the receiving end.

Remittance payouts

Deliver money from abroad to bank accounts in our five markets, in local currency.

IN

Mass payouts

Payroll and contractor payments to hundreds or thousands of recipients in one run.

IN

Supplier payments

Importers pay suppliers overseas. Exporters receive payment from buyers abroad.

IN & OUT

Stablecoin rails

Move money in fiat, or in stablecoins where your jurisdiction allows. Recipients get local currency.

FIAT OR STABLECOIN

How it works

From your funds to their account

1

Tell us the corridor

Pick the market and the direction: money in, money out or both.

2

Send funds in fiat or stablecoins

Depending on the service available in your jurisdiction.

3

We deliver

Recipients get local currency in their bank account. Suppliers overseas are paid by international wire.
