Enterprise cross-border & stablecoin payments for emerging markets

Compliant fiat and stablecoin rails for remittances, payroll and supplier payments across India, Pakistan, Nigeria, the Philippines and Egypt. We handle every step, from your funds to the recipient's account.

Talk to our team

A simpler way to move money in and out of emerging markets

Payfuture moves money into and out of India, Pakistan, Nigeria, the Philippines and Egypt for money transfer operators, banks, fintechs, payroll providers and trading businesses.

You send us funds in fiat or stablecoins, depending on what's available in your jurisdiction. We carry them over our rails and deliver local currency to the recipient.

Delivery options differ by market. Each corridor page shows what's available and the recipient details you'll need.

Focused payout corridors

Payout infrastructure for India, Pakistan, Nigeria, the Philippines and Egypt.

In and out.

Remittances flow in and supplier payments flow out, on the same rails.

Fiat and stablecoin rails

Move money in fiat, or in stablecoins where your jurisdiction allows.

Built for the last mile

Global payment providers can get money to a border on their own. Getting it into a recipient's account in Lahore, Lagos or Manila takes last-mile rails and local knowledge.

Payfuture's rails reach recipients in five corridors and carry payments back out to suppliers overseas. Delivery options depend on the market.

Pick the solution that fits how your money needs to move.

- Local payouts

Remittance payouts

Deliver local currency to beneficiaries in Payfuture's payout corridors. Available delivery methods depend on the market.

FX & liquidity

See the rate before you confirm a transfer.

Fiat and stablecoin rails

Move money in stablecoins where available to your business. Recipients always get local currency. Link: Choose your jurisdiction

Mass payouts

Payroll and contractor payments in batches, for payroll providers and businesses with teams in our corridors.

Transfer tracking.

A record of every transfer across every corridor, for your operations and finance teams.

Supplier payments

Importers pay suppliers overseas and exporters get paid by buyers abroad, through the same rails.

One partner covers remittances, payroll, supplier payments and FX across five corridors, end to end. No stitching providers together market by market

providers together market by market.

Talk to sales

Mass payouts into emerging markets

Payroll and contractor payouts to recipients in India, Pakistan, Nigeria, the Philippines and Egypt, for payroll providers and businesses with teams there.
